First name: Storme

Last name: Webber

Organization:

Title:

Comments: WE need our public lands to be truly for the public, not the rancher. Ranchers have support to conduct their business, and we the rest of the population do not ask to use public lands, for our needs. I ask that you be fair, not give privilege to wealthy ranchers running their own businesses, and defend our public lands the way they were meant to be defense. No grazing rights on public land, for private businessmen. It is not fair.
