First name: Danielle

Last name: Schneider

Organization:

Title:

Comments: What is needed is less cattle grazing which is detrimental in so many ways to the environment, causing land and water degradation, health and déliterions animal welfare.

Unfair competition with wildlife for available ranges.

The low amounts of money paid to the government for use of my and other citizens public lands is a disgrace.

Meat consumption is down; and will probably continue downward.

No entity, i.e. cattle ranchers, should be granted lifelong entitlement(s).
