Comments: Defend our forest the trees filter the air it took the trees 100 of years to grow and they can be cut down in minutes once they are cut down they will never can be replaced in my lifetime for the good of our country and wildlife. And airlitration so we can breath in fresh air please protect our forest when I'm in a place of trees I can breath so much better Trees to me are more valuable than gold They can't be replaced in our lifetime because it takes trees many years too grow I want my small niece too have healthy air to breath
