Comments: As a U.S. Citizen and taxpayer I am Asking You to Immediately DROP Your proposed "Rangeland Management Directive." It is Way past the time to Protect Our Public Land and NOT The Cattle and the relentless grazing You allow!!

Any revisions to Forest Service grazing policies should encourage and prioritize voluntary grazing permit retirement to reduce permitted livestock grazing across the National Forest system, including within Wilderness, so as to protect Wilderness, other public lands, and wildlife.

The FS should not return grazing to the excessive levels permitted in the 1960s when it is clear conditions oftentimes cannot support increased, or even current, grazing levels.

The Forest Service must develop policies that ensure the agency will maintain authority for grazing management decisions and hold grazing permittees accountable for the impacts their livestock has on public lands.
