Comments: Federal Lands management has veered towards appeasement of cattle grazers & oil industry interests vs "protection of our lands & wildlife that reside on them" like wild horses & burro & wolves, coyotes, etc.

We own the public lands & want less cattle grazers & oil industry influence as we have rights to lands that conflict with these for profit industries. Also, we request all round ups of federally protected wild horses & burro CEASE until new Dept of Interior reviews all prior orders of Pendley whom was under Court Order to resign, yet, refused.
