Comments: To: USDA FOREST SERVICE, Please do not DEGRADE OUR PUBLIC LAND! Leave our Public land for (All) Live Stocks to keep grazing as they have been doing. What will the Live Stock have if You People keep destroying everything? Live Stock grazing in our National Forests, out in the Wilderness is a beautiful thing to see. Please drop Trump - ERA Forest Service Grazing Plan. Drop your Proposed Rangeland Management Directives! Remain "UNTRAMMELED" Wilderness allowing (ALL)Live Stock to Graze on/in National Forests free in the wilderness.
