Comments: I would like to see as much of our public lands and National forests left alone so my grandchildren and great grandchildren can take their children to wild areas. I would also like to leave some land for wild animals to use. In the 1960's there was a reason the land was protected and I do not believe we are wiser today. Especially when times are hard on people or industries that is not an excuse to destroy the land, who's presents can never be replaced if we destroy it. Our wild animal populations need a place to raise their babies and live out their lives. Please at least keep cattle, who are quite destructive out, within the bounds they currently occupy.
