First name: David

Last name: Walker

Organization: 3463 State Street

Title: CEO

Comments: Remove all livestock from wilderness areas and retire all grazing permits from all public lands. These invasive livestock have a deleterious effect on wild nature, denuded foliage, polluting the riparian habitat, and trampling the soil. Plus, their flatulence produces prodigious amounts of methane gas, which contributes - and exacerbates - climate change. Hence, they should all be removed!
