Title:

Comments:

I am 82 years old retired nurse and mother of 2 boys and grandmother of 4 granddaughters. Over the years I have become more concerned about the loss and misuse of our public lands.

These lands belong to all of us and I believe it is your responsibility to protect them for our young people as well as for the animals that depend on a natural environment for their survival.

PLEASE protect the very best of our country as the heritage our children deserve.
