Title:

Comments: I and my extended family love the great American outdoors and after several years of fantastic holidays camping in our wonderful National Parks, we decided this year to stick to the surrounding national forests, because of the increased freedom to enjoy the outdoors without the crowds, but what sort of future will this proposed legislation have on these freedoms, considering my enormous expense of almost moving my whole house to the outdoors. I will go thru this article in depth this week.

Regards

Colin Rebeck
