Comments: The proposed directives update Forest Service Manual 2200, "Rangeland Management", Chapters Zero, 10, 20, 30, 40, 50 and 70; Forest Service Handbook 2209.13, "Grazing Permit Administration", Chapters 10, 20, 30, 40, 50, 60, 70, 80 and 90; and Forest Service Handbook 2209.16, "Allotment Administration", Chapter 10 are not acceptable as written. Your planning succession, recognized entities entries and added section on Conservation Easements are troubling in that they treat public land as if it is privately owned by a few - forever. Please omit them as written. Thank you for considering these issues.
