First name: Lela

Last name: Florel

Organization: Preserve Remington Woods

Title: Founder

Comments: Grazing should not be permitted on public lands. It destroys wilderness and wildlife. Earth's total biomass has been reduced by an estimated 50%, and 70% of the world's forests have been destroyed or degraded. At this time when human activity is rapidly moving the Living World toward ecocide, we must not allow any more destruction of the Living World.
