Comments: There are better ways to manage the land and wild horses. Please consider the options presented by AWHC and others who are trying to preserve the wild horses and burros. They have presented viable options that are cost effective and less harmful to the animals. It baffles me as to why you can reject these options! This land is their home and they belong there. You have a duty to protect and care for them on our behalf just as you have a duty to serve the public. Listen to us as we ask that you hear and accept our petition to do what's right.
