Comments: Hello,

I'm tired. I'm so very very tired of hearing on a daily basis the selling off of our wildlife and lands to cattle. This is destroying our countryside and decimating wild life. Please don't sell out these horses so someone can raise more cows to murder. Consume. That's all we do. Soon there will be nothing left.

Just stop this.

Let me have one moment of peace thinking someone is looking at a bigger picture than greed.
