Title:

Comments: These horses have been the target of brutal shootings in the Forest that have left 28 dead since 2018. I am speaking up for the Heber wild horses and I am asking for better treatment, a fairer plan, and ultimately, justice.

If removals must occur within the Territory, they should be done exclusively through bait-trapping and over time, to meet adoption demand and ensure that the Forest Service does not add to the thousands of wild horses already in off-range holding facilities across the country.
