First name: Phil
Last name: Bidegain
Organization: Cattlegrowers Foundation Inc
Title: President
Comments: 91.38 Vacant Allotments
Comment: In addition to or in lieu thereof, rather than for grass banking, vacant allotments should be provided to beginning ranchers.

Rationale: The small percentage of the nation currently providing food and fiber is aging. The USDA has programs aimed at bringing younger people into the ag community. The Forest Service should adopt/adapt its' programs with the same goal.
