Title:

Comments: As a resident at mammoth lake, I do not want you here mining and polluting our community. You will be destroying our beautiful area with your careless open pit mining tactic. You will be of no benefit to the community. We don't want permanent roads out where you are planning to mine. Let the wildlife live! Quit destroying our world with your construction and mining! Years ago there were roads made out there destroying the endangered sagebrush, please don't repeat it. Your plan is cheap, harmful, and selfish with a lack of respect to the beautiful area you are planning to destroy. There is also no housing for your workers up here with the current housing situation. Where are you gonna put all the waste? How much of our water are you going to use and ruin?! This proposal is frustrating and saddening. I'm begging you to please leave out precious land unscarred! We don't want you liking here!
