Comments: I am disgusted and appalled that "public servants" instigate the decimation of the public's natural wonders of which OUR wild burros and horses are a part. **YOU DO NOT HAVE THE RIGHT!** These are the PEOPLE's treasures not you, your bureau, nor the parties who feel these tactics are in the best interest. **START** working for the PEOPLE and save our Wild Animals before it is too late. You will pay at Judgment Day for your choices.
