Comments: I am a horse lover and owner. These horses that you want to be taken off federal land have been there for over a hundred years. This IS federal land and NOT ranchers land. Just because ranchers most likely lease this land does not give them the right to have the horses removed. AND we know it is the ranchers that are driving this. When they leased the land, they knew it BELONGED to the horses. They can just suck it up and live with it. Let them go BUY their land for their cattle. It is all about the money. The Bible says that the love of money is the root of all evil and what you are wanting to do is EVIL!!! These are majestic creatures that deserve to stay on this land!! The horses being there is a draw for the state the same as the horses in North Carolina on the coast. People love to see these beauties in their environment where they have existed for so many years. AND you, the government, wants to take that away from them!! Do you not have any ounce of compassion for these creatures?? Wild horses are being exterminated slowly by the government. Just as with anything the government touches, it destroys. It is time for the government to do what is right and not what money dictates. DO THE RIGHT THING!!! LEAVE THESE HORSES WHERE THEY ARE!!!
