Comments: I oppose the use of OUR PUBLIC lands for grazing cattle-especially when the ranchers are only paying about 1.35 per animal to do so-a fee that hasn't changed in decades!!!
This is egregious and PEOPLE will NOT tolerate it any longer!!!
OUR Public Lands and the Wildlife that call them home are struggling enough due to pollution, climate change and this deforestation for cattle!
We are experiencing the 6th largest extinction rate-with ecosystems in collapse and the food chain also in decline.
As someone who has been fighting for the Buffalo, Wolves, Mountain lions, Bears, coyotes and other wildlife that are targeted by the Forest Service, Wildlife Service to appease ranchers-I URGE YOU and DEMAND that NO EVASIVE cattle continue to decimate and contaminate Land that is EVERY AMERICANS-it is NOT for profit or use by anyone making a profit off of it's use!
Do YOUR Job-PROTECT, CONSERVE and PRESERVE OUR PUBLIC LANDS!!!!!
