Last name: Kapoor

Organization:

Title:

Comments: I oppose this. Please keep the Heber horses wild and free. There are many humane ways to manage the herd. The Salt River horses get birth control and it has done wonders for the health of both the herd and the area they roam. Please consider using the same management practices they do.

These horses bring a lot of money to your area. I come visit the horses often. I spend money on your town. I only come to visit them and if they are gone I and others will have no reason to come visit. They are beautiful and have been there for so long. They are icons and deserve to remain wild and free. Thank you for reading my message.

I officially represent myself and no organization.
