Title:

Comments: I oppose the Heber wild horse plan. There are actually humane ways available to the forest service to manage their numbers such as birth control. The forage allocation was only counted by the size of the territory, not by the actual size of the acreage where they roam. The horses are a historic herd protected by federal law. The horses bring Arizona and the local communities income and recreation. And finally, these are public lands in which the opinion of the public should matter most. Thank you."
