Title:

Comments: I am a United States tax payer and I am very much against the removal of any federally protected wild horses and Burros!

Your job is to protect and respect the federally protected wild horses and Burros! Do not allow livestock onto their land!

End The barbaric and inhumane helicopter round ups on the federally protected wild horses and Burros and selling them for slaughter!

You can spend your own money and do helicopter round ups on the livestock that you care so much about....

And leave our federally protected wild horses and Burros alone to be wild and free on their land and treat them with PZP for birth control! Do your job, protect them!

We the people (tax payers) of the United States and all across the world DO NOT want any of our federally protected wild horses and Burros be removed!
