Last name: Townsend
Organization:
Title:
Comments: Please consider a different plan and introduce this herd to PZP so the births can be limited every year. There should be NO reason to capture these horses who thrive I. This environment as they have done for years and years. This is a much better way to control the birth rate of this herd. Such a easy solution and I'm sure much more cost effective.
Please consider this and allowing these Beautiful Horses to always run Wild and Free.

Thank you.
