Comments: I'm very opposed to the Forest Service rounding up Heber WILD horses.

They are also the last herd in Arizona on Forest Service land that is protected by the Wild Free Roaming Horse and Burro Act of 1971. So you CANNOT round up or remove or sell.

there is a better, more sustainable, cheaper, and more humane way to manage wild horse population numbers. It is a proven safe and efficient method called PZP that can be darted in the field without capture. This is what the forest service must try first, before any extreme removals to unsustainable numbers
