Hello Ms. Black:

I live in the mountains of Arizona and I want to comment on these rangeland directives. I am hoping that since this is a weekend, you will consider my comments even though you asked for comments by yesterday. I just became aware of the issue today.

My comment is very simple and direct. I strongly feel that rangeland grazing has no place on NFS Wilderness designated land. Wilderness does not encompass commercial human activities that compete with the natural habitat. I want to see all grazing removed permanently from Wilderness lands.

Respectfully,

Garth Orkney

6456 Christmas Tree Circle

Pinetop, AZ.
