Comments: Why must our wild horse's always be attacked by us? If it wasn't for the horse our country would not have revolved. They gave their life working in Cole minds, wars, plowing our fields and the list goes on. We should respect our wild horse and enjoy their beauty plus they help keep rough-edged down to help prevent fires. I can see giving them an agent to keep them from becoming pregnant to held keep the herd from getting any larger. Horse's run in a herds with a head mare that calls the shoots and a stallion who keeps out siders out of his herd and protects them. I pray for them
