Comments: Regarding your plan of action for the Herber Horses: As a taxpayer I want to voice my objection to most of your plan. There is verifiably more than enough territory for these NATIONAL TREASURES to live in peace! You are supposed to be in charge of protecting this herd, not destroying it. If in your esteemed opinion there isn't enough room for our horses and the cattle, get rid of the cattle not our horses. As a taxpayer no one ever asked me if I'm interested in subsidizing the cattle industry. Let me be clear: I am not. If the cattlemen need more grazing room that's their problem & our wild horse population should not be adversely affected by this.
