Comments: Thank you for the opportunity to comment. I highly recommend that this herd be left alone as they have been since the late 1800's. They are healthy, have a great social structure, which your plan would decimate, and manage their numbers naturally. Please - let them be! (owner of 2 adopted BLM burros I wish were left in the wild like they grew up). So sad.

Thank you for your time and consideration. This is a bad idea and should be shelved. Tori Hackney 503-357-3874
