Title:

Comments: I am completely opposed to the Kore cyanide leaching project in Mono county. I frequently hike, snowshoe in the area. I am sometimes joined in these activities by my 87yr old dad when he visits me from Canada.

California has so many beautiful areas like the Sierra, Mono+Inyo counties. I'm tired of the "destroy the environment for jobs" argument. People should find a more creative and less destructive way of providing jobs if they are so needed.
