Comments: I am writing in opposition to the plan to remove wild horses from the Heber area. Please do not allow owners who are too cheap to pay for feed for their sheep and cattle to influence your decisions regarding the mustangs. If they own them, they can feed them! If you reduce the population by force, rather than humanely using darting sterilization procedures that have been proven highly successful, such as done with the Salt River horses, there will be too much inbreeding to keep them strong. Keep those mustang families together and out of slaughterhouses. These horses are some of the few true symbols of American freedom. They inspire us with their wildness, amaze us with their love for each other, and remind us of our past and future. Please show wisdom and compassion in deciding their fate. Voters like myself are watching your actions and praying that you truly protect them. Thank you for listening.
