Comments: I am a season pass holder for Nordic skiing in Summit County, including the Frisco Nordic Center. I have been skiing at the Nordic Centers for 30 years and would like to give input for the proposed new Nordic trails at the Frisco Nordic Center. I have reviewed in detail, along with my husband Dan Snow, the FNC_Phase_Trails_Scoping_Figure-W.pdf file and whole heartedly approve of the proposed new trails. Since I have been Nordic skiing the trails at the Nordic Centers in Summit County, I have mainly seen a disappearance of the number of Nordic trails. The FNC used to have over 40 km of trails which have been steadily reduced over the years. It is time to start adding more recreational Nordic trails to the FNC.
