Title:

Comments: Please, leave the Heber Wild Horses in their wonderful environment they know as their home.

Breaking up their bands and taking their young colts away from their mothers will only break the spirits of these beautiful animals. I cannot imagine the terror they would go through during a round up and we all know many would not make it. Please, let them live in peace. Haven't we as humans taken so much from our planet as it is? Can we stop being greedy, please I beg you. We can do better and let the Heber Wild Horses stay wild and free and live out their lives in their home.
