Title:
Comments: I am asking you to please reconsider this plan. There are humane ways to manage wild horses. The horses can't speak for themselves so I will - do not let the ranchers influence your decision. The wild horses are part of our heritage. They deserve to live without harassment by those individuals. The example set by the Salt River Wild Horse Management organization has shown how to humanely and lovingly protect wild horses. Our horses are thriving with the support of hundreds of local and out of state people who realize how important they are! Please take the responsible action to protect the Heber wild horses. And, please continue to find and prosecute the shooter of these beautiful animals!
