First name: Sandy

Last name: Duarte

Organization:

Title:

Comments: Please don't move these horse. They are used to their area, if you move them that would just destroy them. How would you like if someone told you that you can't live in your home anymore! How would you feel? Or how would you react if someone took your land away from you! I would be devastated, if something like that happened to me. Please think about what you are doing to these animals.
