Comments: Dear Project Official,
I am writing in regards to the Herber Wild Horse Territory Plan #18916. Please protect this rare herd of wild horses in their current range of habitat. I believe they are culturally important to the area and should stay. Please note the fertility rate is only increased by 3% and NOT 20% as reported by the BLM. I think the horses are valuable asset to the culture and should be kept in the area.
Sincerely,
Ruth Dillon
