Comments: Forest Service is attempting another end around on the public. Please reconfigure to increase the AML to 200 horses, reference BLM handbook by Cothran 2009.

Create a Wild Horse Sanctuary by removing all livestock from the territory, per the Wild Horse Act to move towards sustainable herd.

Manage the herd before roundups with PZP to maintain wild behaviors using private partnership. Correct deficiencies in fencing that cuts off water from the herd. Redraw boundaries to be in conformance with historic migration patterns.
