Comments:

Why are the horses outside of the Heber Territory included in this study and being targeted for removal?

The horses in the Pinetop/Lakeside/Show Low area many times come from the Reservation. Are you working with the Reservation to ensure they are in agreement with removal of horses that are on their lands and wonder into the Sitgreaves forest for water or forage?

Please leave them all alone. They are on Public lands and this member of the PUBLIC does not want any of these horses removed.
