Comments: I wanted to take moment to comment on the Sandia Peak Ski Area Mountain Coaster. I think this is an excellent idea. There are very few activities in the Albuquerque area, and this seems to be something that could draw people to the Sandias for an outing. My family and I would likely use this coaster several times per year. We enjoy other outdoor activities, including mountain biking, but this seems like another fun activity. I hope this plan is approved and open soon.
