Comments: Please, leave the horses alone. SRWHM needs to stop feeding behind her property. Having empty water troughs and letting the public near these wild ones. Let them get back to the river. Supplement feedings there.

The Herber horses are fine, not over populated. Pzp is causing birth differs in horses already carrying. PLEASE do not consider cows over horses. If ranchers want cattle they need to BUY their land to raise them. Leave the wild horses WILD IN THEIR HOME !!

Thank you !
