Comments: I wish the Forrest Service to take NO ACTION with the Heber wild horses. The wild horses are an integral part of our country and history, they deserve to live free and unopposed. It is the cattle ranchers who are causing the problems, and that is for greed. Like a horse owner, they need to own the land and provide for their animals themselves and not take the resources that these horses need and deserve. They have only us to keep them safe and protected. GET THE CATYLE OFF FEDERAL KANDS AND LEAVE THE HORSES ALONE!!!.
