Comments: I am writing in support of the Peabody West project, especially the proposed glades for backcountry skiing. Already there is a small zone for backcountry skiing, Bill Hill, nearby that was cut by Granite Backcountry Alliance volunteers a few years ago and has since been maintained by GBA volunteers. To locate another backcountry skiing zone nearby to Bill Hill, will dramatically improve this area for outdoor winter human-powered recreation. Based on GBA's track record with the WMNF-Saco District, where two glades are located, Baldface and Maple Villa, GBA should be involved in the cutting and maintenance of the Peabody West glades if this project is approved.
