Title:

Comments: I absolutely oppose this drilling project. This is not a place to do exploratory drilling for the purpose of finding gold. I am a dedicated catch and release fly fisherman, and call Hot Creek my home waters. Though I live 300 miles away. Many years and hours have been spent fly fishing the river, releasing fish, and admiring the aquatic insects. This is a unique watershed that we are able to fish. The fish will die, precious land we'll be destroyed, and fisheries decimated. Please do not approve this proposed project. #hotcreek
