First name: Barbara

Last name: Bane

Organization: Desert Survivors

Title: Board Member

Comments: I represent the 400+ members of Desert Survivors, an advocacy group for western deserts. We hike and camp in the Eastern Sierra. We object to this project as endangering sage grouse habitat as well as a waste of water resources in an already water scarce area (Long Valley). We also reject the use of Categorical Exclusion for clearance on this project, believing that even early drilling exploration has the potential to harm the resources of this locale.

Thank you,
Barbara Bane
