Comments: I strongly feel that an important element of Tamolich Pool has been ignored by the USFS plan. That is the peace of the area. Your proposal treats Tamolich like a Disney attraction and will ruin the experience. If you read over the proposed "improvements" you might in this light, you might see how all that is missing is someone selling hats and tee shirts.
This should be a restricted area that people or groups can sign up for in limited numbers as they do for other impacted areas-Jefferson, Green Lakes, etc. The hoards of people, the buses you encourage with lots of bus parking, etc. will destroy the experience of connecting with one of the wonders of nature.
