Last name: Honrath

Organization:

Title:

Comments: Long Valley is an area with considerable value to wildlife, water and air quality, and recreation. The supposed "good-paying jobs" the mining companies always promise are ephemeral and benefit out-of-towners the most, while the long-term consequences are borne by the people who call the Eastern Sierra home. Mining ought to be history in the Eastern Sierra - it's had enough of an impact here already.
