Comments: I am opposed to the Long Valley Drilling Exploration project #59294.

The proposed mine presents significant risks, concerns and potentially serious long-term harm to the area. The toxic nature of the mining method presents environmental risks to exposed wildlife, dispersal by wind and contamination of ground water.

The sole intent of Kore Mining is to enrich themselves and their investors on our Public land, then take their money and run.

The USFS should not permit the additional exploration proposed by Kore Mining.
