Comments: Please please please do not add such a large parking lot to the trailhead at Tamolitch Pool. After what we've seen happen to the Gorge and the absolutely insane parking around Mt Hood last summer, we need to be doing everything we can to preserve these areas of natural beauty. I agree that people should no longer be allowed to swim in Tamolitch for this reason. I don't think it's good for the environment to add more parking. There's literally a song about it! They paved paradise to put up a parking lot! Please don't pave our pristine paradise for another parking lot where people will only use it as an opportunity to not treat the land with the respect that it rightfully deserves.
