Title:

Comments: Leave it open! There are so few natural swimming holes in Oregon, and by closing it, we will add environmental strain on other locations. Add a "swim at your own risk" sign! Post a "no lifeguard" sign! Only 8 incidents over 9 years is a better indicator of poor education on safe swimming. Add a "swimming season" and strongly discourage swimming before Memorial Day! Give people the risks and then give them the choice and ownership of their own actions.
