First name: Sandi

Last name: Stephenson

Organization: Mount Rogers Trail Coalition

Title: President

Comments: We hope that this project does improve the forest as your plans have said. We want to ask for someone from the forest service to be going out weekly to check on these loggers and what they are doing and make sure they pickup their trash. It's not good to just tell people where to go and assume they are doing it right. We have evidence in the forest that in the past they just discarded empty oil cans/plastic and broken cables are left behind. One of your goals is to do away with user created trails and the solution is to add some contacter trails to the system. We have contacted other NRA and their rangers are open to improving trails and adding trails to there systems, if you reference the trail proposal our group did a couple of years ago the information is there. We just ask that the Mount Rogers NRA remain a National Recreation Area, for the enjoyment of all recreation activities. Sandi Stephenson MRTC
